

MEI, LLC

PRECISION METAL FABRICATION

MEI's Metal Fabrication capabilities are extensive. With full design or build to print capabilities, we utilize certified welders with the ability to fabricate a wide range of materials including Stainless, Aluminum, Mild Steel and exotic metals. MEI has become a leader in the fabrication of Machine Tool Pedestals and Seismic anchorage and can handle jobs ranging in scope from small custom parts to large production runs of fabricated weldments. Our Forming, Punching, Slotting, Bending, Machining capabilities are complemented by our in-house Powder Coating division and our extensive local vendor list for finishes including electro-polishing, anodizing, and all types of plating.
