■ Shipping Preparation—Domestic or International

- Export Documents & Shipping All Over the World
- Ordering, Blocking & Bracing of Ocean Containers
- Dangerous Goods Declarations for IATA, ICAO, IMDG & US DOT
- Air, Land & Ocean Freight Services

■ Semiconductor Equipment Crating

- Extensive Experience
- Crated and moved more than three billion dollars of sensitive equipment in more than 10,000 crates in the past five years.

Built on Commitment

MEI Rigging and Crating provides rigging, machinery moving, factory relocation and crating services for industrial and commercial clients. A division of MEI LLC, we've been in business since 1990 serving satisfied customers around the world. Our quality services provide:

- A single-minded customer-oriented service philosophy.
- End-to-End service coordination. MEI is a partner who will coordinate your moving, rigging, shipping and crating projects so you can focus on your core business.
- Experience that delivers. Our experience results in completion of your job with less stress and no surprises.
- Highly trained crews. MEI teams are trained to provide timeliness, attention to detail, superior service and safe work conditions.

At MEI our reputation is built upon our commitment to outstanding customer service.

Recent Crating Projects

- Crated a complete factory of 700 semiconductor tools for transport to a new facility.
- Crated an entire glass inspection line weighing more than 84,000 pounds for shipment to Taiwan.
- Crated amusement rides and theme park facades for shipment overseas.
- Crated a 60-foot high telescope for shipment to Antarctica into 2,200 cubic foot crates weighing up to 36,000 pounds.
- Designed, built and packed crates for all types of oil field equipment.

Meets ASTM Industry or Military Specification

Our Business Philosophy

*Quality employees working in partnership
with demanding customers*

MEI's success is defined by the quality of its employees. Every MEI employee knows that customer service is our number one priority. Our division heads have a combined 100 years of experience in the semiconductor manufacturing equipment industry, and 50 years with MEI. This leadership and experience result in the delivery of top quality equipment and service that will exceed your expectations.

Our success relies on our ability to build effective partnerships with our customers. End-to-end service management, planning, and quality execution result in a job well done. Our company is built on commitment, and we deliver.

Reusable Crates with Ramp

Experience that delivers. Less stress. No hassles.
